COUNTY'S FRUIT AND VEGETABLE CROPS NOT DAMAGED

Weber county's fruit and vegetable crops were not damaged by the cold wave last night, according to Royal N. Rasmussen, county fruit inspector, following a visit to various sections this morning.

While there was a slight frost in the Hooper and Warren districts, the heavy moisture was sufficient to save even the tenderest vegetables and small fruits. Fear was general among the farmers last night that there would be material damage, but the rains preceding the cold wave, followed by a south wind that came about midnight, brought appreciable relief. In North Ogden the temperature was not below 32 degrees, that being about 10-20 degrees, but only for a brief period in the night.

"Weber county's fruit crop will be the greatest in its history," said the inspector. "There is no doubt of that now. In addition all vegetables and root crops, as well as cereals, seem to show good growth."

JOHN PETERSON RECEIVES 90 DAYS

John Peterson, well known in this city for past offenses, was again arrested last night at Twentieth street and Adams avenue by Detective Grant Syphers for indecent conduct. Peterson was released from a sentence only a short time ago for petty larceny and, although warned against breaking the law again, has made another mistake, for which he will serve ninety days.

Among other arrests were B. Cathrin, intoxicated, who forfeited \$5 bail; W. A. Fitzgerald and F. G. Anderson, vagrants, now serving ten days; Nicholas Armstrong, vagrancy, ten days; G. S. Sheppard, intoxicated, five days, and W. E. Jackson, intoxicated, bail forfeited.

MISSIONARY FAILS TO GET REGISTERED IN TIME

F. E. Call, a Mormon elder from Ogden now at Manassa, Colo., is the first Ogden man to fall under the ban of the United States government's regulations for the national army draft law, for his registration card did not arrive in Ogden until 2:15 o'clock this afternoon, the period of grace for the cards having expired yesterday, according to official word from Washington, D. C.

City Recorder Richey decided to file the card, placing the exact time of receipt upon it. The card was properly made out and signed by the county clerk at Manassa, Colo., but according to officials the termination of the grace period means that no certificate can be issued. All cards received in the future will be tabulated on a special sheet by the city recorder and this information forwarded promptly to Governor Bamberger and, through him, to the proper government officials.

One man past the registration age asked for permission this morning to look through the list of its registered. He said that he might locate one man who had not registered. The city officials permitted this investigation. However, the inquirer would not state whether he found the name or did not.

HINDENBURG IS CONFIDENT.
AMSTERDAM, via London, June 11, 5:15 a. m.—Field Marshal von Hindenburg has telegraphed to the Potsdam union for a German peace. "I am sure that the army and the people, held together by the strong hand of our gracious Kaiser, will enforce against any power on earth such a peace as Germany desires, so that the present war will not have been fought in vain."

DR. E. I. RICH'S AUTO FOUND IN SAN PETE COUNTY

After having dashed half way across the state of Utah on Sunday, following their escape from the Utah State Industrial school and the theft of Dr. E. I. Rich's high powered automobile, two boys are believed to have been implicated in a robbery of a store in Fairview, Sanpete county, near which the automobile was found. A posse formed by the sheriff of Sanpete county is now pursuing them.

According to word received at noon by Chief of Police Browning, the Rich automobile was found five miles from Fairview. It is believed that the boys abandoned the car. The automobile is a Haynes seven-passenger touring car and was stolen Saturday night from Dr. Rich's home at 2475 Jefferson avenue.

Nine boys made their escape from the school Saturday night, but four were quickly apprehended. Two of them were found near the Becker bridge across the Ogden river and two others were driving north in a rig along the Brigham road. That some of the boys attempted to take the automobile belonging to W. H. Beaudon, 737 Adams avenue, but could not operate the machine is believed, for two bicycles owned by Beaudon were taken and later found at Dr. Rich's home, the finding of these leading to the discovery of the auto theft.

Belief that the three other boys who escaped are in Salt Lake was expressed this afternoon by Superintendent Hinckley of the industrial school, who anticipates that the entire five will soon be apprehended and brought back to the school.

FARMERS MAKING A GOOD SHOWING

Completion of "food mobilization" crop reports for Weber county by July 1 is anticipated by W. Preston Thomas, county farm agent, who has asked all farmers compiling these records to report them to the Weber county farm bureau office by June 15.

While the preliminary reports, showing that 3300 additional acres would be planted this year, have given some conception of the probable increased yield in the county this year, the new record will be even a more complete one. The forms that are being filled out by all the farmers show the name of the farmer, location, total acres in the farm, total cropped acres, of 1916 and 1917, total pasture acres, total waste acres and barren lands. In addition, the cards show the number of acres planted in 1916 and also in 1917 to wheat, barley, oats, corn, alfalfa, timothy, other hay, sugar beets, mangle wurzels, carrots and potatoes. Later on the same cards will be shown the yield of each crop and the surplus of 1917 over the preceding year.

VERIFICATION ON REGISTRATION

Mayor Heywood has called attention, at the request of W. G. Williams, adjutant general of Utah, to the following provision, effective when men lose their registration certificates:

"No. 499. Cases in which registered persons have lost their registration certificates have come to the attention of this office. In such cases the registration board which had the card of such person should, upon application, verify the fact of registration and upon proper evidence of good faith give a written statement signed by the clerk setting forth the fact of registration, the name of the person registered, the date and number of the registration card, and a statement to the effect that evidence has been submitted proving the loss of the registration certificate. This course seems preferable to issue of duplicate certificates. Please give widest publicity and inform registration boards by mail."

WASHINGTON, June 11.—In the South Dakota express rate case the supreme court today annulled in part, so far as they exceeded the state's powers, injunctions of state courts against the American and Wells Fargo Express companies which required them to maintain certain lower intrastate rates despite interstate commerce commission tariffs permitting higher rates to prevent discrimination against Sioux City, Iowa.

The court, through Justice Brandeis, reaffirmed its ruling in the celebrated "Shreveport rate case" and held that the federal commission, in regulating interstate rates, has power to disturb intrastate rates fixed by local authorities.

WASHINGTON, June 11.—Injunctions against labor unions under the Sherman anti-trust law, the supreme court decided today in dismissing proceedings against New York Carpenters' Union, can be secured only by the government and not by private persons. Justices McKenna, Vandenberg and Brandeis dissented.

Injunction proceedings brought by "open shop" woodwork manufacturers to restrain New York Carpenters' Union and others from refusing to work on their products were dismissed by the court.

RAILROAD PLAN BEING DEBATED

Union Pacific and Other Big Roads Discussing Defense Board's Unit Scheme.

OMAHA, June 11.—Whether the railroads of the United States must be operated as a unit under the plan worked out by the national council of defense, is a question railroad officials of Omaha, where the Union Pacific, the Chicago, Burlington & Quincy and the Chicago & Northwestern have headquarters, are debating.

According to some transportation men the only way engines or car equipment can be taken off the Omaha lines without crippling the service will be under the unit plan. Omaha roads figure that with the enormous movement of soldiers and equipment in sight, together with a regular business that is already 25 per cent greater at this time than in any previous year, there will be a serious shortage of equipment. There is a probability, they say, of such a shortage that there will be no equipment to send to France, if a requisition should be made.

Operating officials of the local roads assert they are short of power and that to send abroad any engines would cripple the service materially. Old engines that were nearly ready for the
